## **KATA PENGANTAR**

Puji syukur kami panjatkan kepada Tuhan Yang Maha Esa yang senantiasa mencurahkan rahmat dan hidayah-Nya sehingga kami dapat menyelesaikan praktikum Pemrograman Web Dasar serta laporan akhir praktikum Pemrograman Web Dasar. Adapun laporan ini berisi tentang kumpulan tugas dan evaluasi dari hasil pembelajaran selama praktikum berlangsung.

Tidak lupa ucapan terima kasih kepada asisten dosen yang selalu membimbing dan mengajari kami dalam melaksanakan praktikum dan dalam menyusun laporan ini. Laporan ini masih sangat jauh dari kesempurnaan, oleh karena itu kritik serta saran yang membangun kami harapkan untuk menyempurnakan laporan akhir ini.

Atas perhatian dari semua pihak yang membantu penulisan ini, kami ucapkan terima kasih. Semoga laporan ini dapat dipergunakan seperlunya.

Yogyakarta, 22 Mei 2025

## **BAB I**

### **PENDAHULUAN**

#### **1.1. Latar Belakang**

Di era digital saat ini, penggunaan produk teknologi seperti iPhone, iPad, MacBook, dan berbagai produk lainnya dari Apple terus meningkat. Terutama di kalangan generasi muda, atau kerap disebut generasi Z atau *gen Z*. Namun, seiring dengan banyaknya pilihan dan fitur yang ditawarkan, calon pembeli kerap kali menghadapi kesulitan dalam menentukan produk mana yang sesuai dengan kebutuhan mereka. Banyaknya varian produk dan informasi yang beredar secara tidak terstruktur membuat proses pemilihan dan penyaringan menjadi semakin rumit (Godara et al., 2024).

Brand Apple sendiri telah menyediakan situs web resmi yang memaparkan spesifikasi hingga fitur-fitur yang dimiliki produk mereka. Namun, pengguna cenderung lebih tertarik pada pengalaman nyata dari sesama pengguna. Review online telah menjadi salah satu sumber informasi utama yang sering digunakan konsumen dalam pengambilan keputusan pembelian karena dinilai lebih relevan (Sahu et al., 2024). Review dari pengguna terbukti membangun kepercayaan dan memberi persepsi nilai yang lebih tinggi terhadap produk (Sitorus & Simanjuntak, 2024).

Sebagian besar konsumen digital, terutama generasi Z, lebih memilih mencari ulasan dari internet sebelum memutuskan untuk membeli produk. Hal ini didukung dengan fakta bahwa 83,58% pengguna internet di Indonesia berasal dari kelompok usia 15-24 tahun. Kelompok usia tersebut merupakan pengguna aktif *e-commerce* serta forum digital sebagai referensi pembelian (Fauziah & Awali, 2023).

Sayangnya, ulasan-ulasan yang tersebar di media sosial atau blog pribadi sering kali bias, tidak valid, atau bahkan bersifat promosi tersembunyi. Oleh karena itu, dibutuhkan sebuah platform web terpusat yang dapat menggabungkan ulasan dari pengguna biasa dan admin secara terstruktur. Tujuannya adalah agar pengguna baru dan calon pembeli produk Apple dapat memperoleh informasi yang akurat dan terpercaya dalam satu tempat.

Dengan hadirnya website AppleTalk, konsumen dapat membuat keputusan pembelian secara lebih tepat berdasarkan pengalaman pengguna lain. Forum diskusi di dalamnya juga mendorong interaksi dan membentuk komunitas yang solid. Ulasan yang lengkap, jujur, dan berbasis pengalaman nyata menjadi sarana penting untuk meningkatkan kepercayaan dan loyalitas konsumen terhadap brand (Pramendra et al., 2024; Fauziah & Awali, 2023).

Pengembangan web AppleTalk diharapkan dapat menjadi solusi efektif bagi pengguna Apple dan calon pengguna Apple dalam menemukan informasi yang mereka butuhkan secara praktis dan objektif.

## **1.2. Tujuan Proyek Akhir**

Proyek akhir ini bertujuan untuk membuat sebuah platform website *review* yang secara khusus membahas produk Apple. Website ini diharapkan bisa menjadi tempat bagi para pengguna dan calon pembeli untuk mendapatkan informasi yang lengkap, terpercaya dan mudah dipahami. Beberapa tujuan yang ingin dicapai dari pengembangan website ini antara lain:

1. Menyajikan informasi yang spesifik, faktual dan aktual tentang produk.
2. Membantu calon pembeli dalam membuat keputusan dengan cara menyajikan ulasan yang jujur baik dari admin maupun dari pengguna lainnya.
3. Menjadi tempat diskusi dan bertukar pengalaman.
4. Membangun komunitas yang aktif dan positif.
5. Memberikan berita dan informasi terbaru dari Apple.

## **BAB II**

### **PEMBAHASAN**

#### **2. 1 Dasar Teori**

##### **1. Sistem Informasi dalam Website Interaktif**

Sistem informasi adalah campuran dari penggunaan manusia, teknologi dan prosedur yang digunakan bersama untuk mengumpulkan, mengolah, dan menyatakan informasi (Marakas & O'Brien, 2013). Pada proyek ini, sistem informasi digunakan untuk membangun website untuk mendukung pengguna memberikan *review* dan berdiskusi tentang produk Apple.

Contoh dari hal tersebut adalah sistem informasi yang berbasis web yang bertanggung jawab untuk mengirimkan informasi dengan cepat, terbuka, dan interaktif ke user internet. Bisa menggunakan komentar dan forum discussion agar para pengguna suka saling minta saran serta berbagi pengalaman dalam pembelian. Sistem informasi yang efisien dan efektif juga akan meningkatkan kualitas interaksi serta kepercayaan di antara pengguna pada tujuan utama memberi informasi yang relevan dan berguna.

##### **2. *Review* Online dan Karakteristik Produk Experience Goods**

Pengaruh kemajuan teknologi informasi telah menyebabkan perubahan yang signifikan pada perilaku konsumen, termasuk mencari informasi dan melakukan keputusan pembelian. Salah satu bentuk pemanfaatan teknologi tersebut adalah ulasan daring atau *online reviews*, yang kini telah menjadi salah satu sumber informasi utama bagi konsumen. Menurut Mudambi dan Schuff (2010), ulasan dari pengguna lain sangat membantu dalam mengevaluasi kualitas suatu produk, terutama jika ulasan tersebut memiliki kedalaman informasi (*review depth*) dan bersifat moderat. Kedua kriteria tersebut terbukti meningkatkan persepsi konsumen terhadap manfaat atau kegunaan suatu ulasan dalam mendukung proses pengambilan keputusan.

Dalam kerangka teori *information economics*, produk diklasifikasikan menjadi dua jenis utama, yaitu *search goods* dan *experience goods*. *Search goods*

adalah produk yang kualitasnya dapat dinilai sebelum pembelian, biasanya dapat melalui informasi yang tersedia secara publik. Sedangkan, *experience goods* adalah produk yang kualitasnya hanya dapat diketahui setelah penggunaan langsung. Produk Apple seperti iPhone, iPad, dan MacBook termasuk dalam kategori *experience goods* karena karakteristiknya lebih menekankan pada pengalaman penggunaan, performa, dan preferensi subjektif dari pengguna.

Berdasarkan uraian diatas, website yang dikembangkan dalam proyek ini difungsikan sebagai sistem informasi berbasis web yang menampung dan menampilkan ulasan-ulasan dari pengguna yang telah memiliki pengalaman langsung terhadap produk Apple. Informasi yang disajikan berupa ulasan atau *review* deskriptif untuk mengukur sejauh mana ulasan tersebut dianggap berguna oleh pengguna lain. Selain itu, website ini juga dilengkapi forum diskusi yang memungkinkan interaksi antar pengguna dalam bentuk pertanyaan, tanggapan, maupun berbagi pengalaman, sehingga memperkaya sumber informasi dan memperkuat pengambilan keputusan konsumen.

### 3. Electronic Word of Mouth (e-WOM) dan Kepercayaan Konsumen

*Electronic Word of Mouth* (e-WOM) merupakan bentuk komunikasi konsumen yang dilakukan secara daring, berupa komentar, ulasan, atau rekomendasi terhadap suatu produk. Menurut Suryadiningrat et al. (2022), e-WOM memiliki pengaruh yang signifikan terhadap tingkat kepercayaan dan minat beli konsumen. Hal ini karena informasi yang disampaikan oleh sesama konsumen dianggap lebih jujur dan tidak bias dibandingkan dengan iklan atau promosi dari produsen.

Dalam konteks proyek akhir ini, forum diskusi yang disediakan pada website berfungsi sebagai media penyampaian e-WOM. Forum tersebut memungkinkan pengguna untuk berbagi pengalaman mereka dalam menggunakan produk Apple, sehingga membantu calon pembeli lainnya dalam menilai kualitas dan keandalan produk. Adanya interaksi antar pengguna dalam forum juga meningkatkan kredibilitas informasi yang tersedia.

## 2. 2 Deskripsi Umum Proyek Akhir

Website AppleTalk merupakan website yang dikembangkan untuk memenuhi proyek akhir mata kuliah Praktikum Pemrograman Web Dasar. Website ini dibuat dengan maksud untuk memudahkan pengguna dan calon pengguna untuk melihat spesifikasi produk Apple mereka dan berdiskusi dengan pengguna lainnya melalui kolom komentar. Isi dari website ini antara lain:

1. Landing Page
2. Beranda Awal Produk
3. Sign Up dan Login
4. Review produk Apple dari pihak pengembang
5. Kolom komentar untuk berdiskusi dan membagikan pengalaman pengguna

## 2. 3 Inti dan Pembahasan

### 1. Listing Program

Berisi code program mulai dari halaman home/ landing page, beranda produk, review produk, login dan register. terdapat juga program untuk koneksi database dengan menggunakan PHP.

# CARA BERLANGGANAN

```

```

```

```

1. Buka app Apple TV di perangkat anda.

```

```

2. Pilih tab Apple TV+.

```

```

3. Ikuti instruksi untuk memulai langganan, termasuk opsi percobaan gratis jika tersedia

```

```

```

```

```

```

```

```

### BAB III

#### JADWAL Pengerjaan TUGAS DAN PEMBAGIAN TUGAS

##### 3.1. Jadwal Pengerjaan

Pengerjaan proyek akhir dimulai pada minggu ke 4 bulan April yang mana anggota mulai mengkaji masalah, merancang sistem program dan mencari informasi untuk isi website. pengerjaan perancangan sistem program dan pencarian informasi berlanjut hingga minggu ke 2 pada bulan Mei. Pada minggu ke 1 bulan Mei hingga minggu ke 3 pembuatan program dan pembuatan laporan mulai dikerjakan.

**Tabel 4.1** Tabel Jadwal Pengerjaan

No .	Kegiatan	April	Mei		
		4	1	2	3
1.	Mengkaji Masalah				
2.	Perancangan Sistem Program				
3.	Pencarian Informasi				
4.	Pembuatan Program				
5.	Pembuatan Laporan				

##### 3.2. Pembagian Tugas

Pengerjaan tugas dilakukan secara berkelompok mulai dari mengkaji masalah, perancangan sistem program, pencarian informasi, pembuatan program, dan pembuatan laporan dikerjakan oleh kelompok secara bersama, sehingga penanggung jawab dari setiap kegiatan adalah seluruh anggota kelompok.

**Tabel 4.2** Tabel Pembagian Tugas

No .	Kegiatan	Penanggung Jawab
1.	Mengkaji Masalah	Fadiyah, Shofa
2.	Perancangan Sistem Program	Fadiyah, Shofa
3.	Pencarian Informasi	Fadiyah, Shofa
4.	Pembuatan Program	Fadiyah, Shofa
5.	Pembuatan Laporan	Fadiyah, Shofa

## **BAB IV**

### **KESIMPULAN DAN SARAN**

#### **4.1. Kesimpulan**

AppleTalk merupakan website yang dibuat untuk memberikan kemudahan bagi calon pengguna produk Apple untuk mengetahui spesifikasi produk yang akan mereka beli. Website ini juga berguna bagi pengguna produk Apple untuk saling membagikan pengalaman mereka dalam menggunakan produk Apple bagi calon pengguna. Ditujukan untuk membuka ruang berkomentar bagi para pengguna produk Apple sehingga dapat membantu calon pengguna untuk menentukan produk apa yang cocok sesuai dengan kebutuhan dan kriteria mereka, dari informasi ulasan yang jujur dan tidak bias.

Tidak hanya diberikan ruang berkomentar, AppleTalk juga menyediakan informasi faktual yang dapat dipercaya sumbernya. Dengan didasarkan pada pembuatan website interaktif dan adanya fitur untuk menambahkan komentar, diharapkan dapat meningkatkan kepercayaan pengguna dan calon pengguna pada produk Apple.

#### **4.2. Saran**

Dari hasil akhir yang diperoleh, terdapat beberapa saran perbaikan yaitu:

1. Perbaikan pada interface, sehingga pengguna dapat lebih menikmati penggunaan website.
2. Penambahan data sehingga informasi menjadi lebih lengkap.
